Alerts
Account Notifications

Real-Time Alert Notifications

ORBE: eAlerts!™ is a web-based, email Notification System which provides members with real-time notification, via email or text, as important account events occur. When integrated into your existing online banking site, this cutting-edge solution reduces call center demand, accelerates fraud detection and provides a competitive advantage.

ORBE: eAlerts! is a much desired service which improves member loyalty. It is easy to install and fully integrates into Episys. Members can set up eAlerts! through the ORBE portal and customize them to their specific needs. They can choose when to be notified, what information they want contained, provide multiple email addresses and even create multiple eAlerts! of the same type.
